Network Systems Security | Enterprise IT Support

TECHNICAL SKILLS

Networking & Infrastructure	TCP/IP, DNS, DHCP, VLANs, LAN/WLAN, Cisco, Aruba, SonicWall SSL-VPN, Windows Server, Linux, VMware, IBM & QNAP NAS/SAN, RAID, Windows 7 (Embedded), 10, 11, Nginx, ERP Management
Cloud, Security & Identity	Arctic Wolf MDR, SentinelOne, Bitdefender, Microsoft Entra ID, Active Directory, Google Workspace administration, Group Policy, Barracuda backup and recovery, Multi-Factor Authentication (MFA), Role-Based Access Control (RBAC), Google Workspace Administration, EC2, AWS CLI, Security Groups
IT Service & Endpoint Support	Ticketing & incident triage, Microsoft 365 Admin Center, remote support (RDP), CCTV/NVR, Software & Hardware troubleshooting, Laptop/Mobile Support
Automation, Scripting & Docs	PowerShell, Python, Bash, Office Scripts, Power Automate, Zabbix and N-able RMM monitoring, SOP and knowledge-based documentation

EXPERIENCE

IT & Web Designer (Contract Part-Time) | Durham Region Association of Black Professionals & Entrepreneurs (DRABPE) |

Pickering, ON | April 2025 - Present

- Administer the organization's Google Workspace domain, structuring organizational units and role-based Drive shares, and enforcing MFA with MX, SPF, DKIM, and DMARC.
- Administer and provide end-user, workstation, network, and printer support; secure the organization's network, segmented office and guest wireless traffic, and harden router and firewall configurations.
- Research and evaluate technology enhancements, presenting recommendations on infrastructure upgrades to leadership.
- Maintain and update the website, administrator account hygiene, and plugin and security updates and patching.

IT Summer Student Intern | Signature Aluminum Canada (SAC) | Pickering, ON | May 2026 - August 2026

- Resolved 90+ help desk tickets across two manufacturing sites, triaging network, server, identity, ERP, and hardware incidents through the ticketing platform, and documenting recurring fixes in SOPs and knowledge-based articles.
- Troubleshoot LAN, WLAN, Layer 1 - 3, and VPN authentication issues, and built domain-joined workstations for new hires.
- Supported identity & access management operations, using endpoint protection agents (SentinelOne, Bitdefender), reviewing Arctic Wolf alerts and administering MFA, Entra ID, and least-privilege Active Directory groups.
- Administered Windows Server, File shares, and Barracuda backup, and supported server recovery after a site power outage.

IT Support & Device Management | Community Development Council Durham (CDCD) | Ajax, ON | March 2026 - June 2026

- Maintained the organization's device inventory with Mobile Device Management (MDM), tablet synchronization and updates, reviewing equipment records, correcting discrepancies, and ensuring laptops and tablets were accurately documented.

TECHNICAL PROJECTS

Secure NAS Deployment & Network Hardening | QNAP TS-233, RAID, SSH, VPN, Network Segmentation | DRABPE | March 2026

- Deployed a Network Attached Storage as the organization's central storage server, segmented office and guest wireless networks
- Built RAID storage pools, scheduled snapshots, and layered backup policies, and applied role-based SMB/NFS share permissions with documented restore procedures.
- Configured Smart Lock access-control system, including IC card and key-fob provisioning for staff, backup storage to cloud (Google Workspace).

EDUCATION & CERTIFICATIONS

Education	Ontario Tech University — Bachelor of Information Technology, Network Systems Security (Honours) April 2027 Durham College — Diploma, Computer Systems Technician (Transfer Program) October 2025
Certifications	Cisco Certified Network Associate (CCNA) In Progress Diplôme d'Études en Langue Française (DELF) B1 May 2023
